FOR IMMEDIATE RELEASE

## **TOP SCALEUP: Healcloud, selected to be part of first ever Scaleup4Europe's HealthLab**

15 March 2021 – Healcloud is proud to announce we have been selected to be part of the inaugural batch of the Scaleup4Europe's HealthLab! This exclusive program from Scaleup4Europe's includes access to experts, coaching, corporate partners and masterclasses to support us on our scaling journey across Europe. 20 healthcare scaleups have been selected following a thorough selection process, in which judges looked at criteria such as business maturity, company traction and product readiness.

The [HealthLab](#) program is run by [Pioneers](#) in partnership with a European pharma company (Europe), Kantonsspital Winterthur (Switzerland), MercurHosp & AZ Glorieux (Belgium) and is part of the [Scaleup4Europe program](#).

Scaleup4Europe is a cross-border project funded by the Horizon 2020 program of the European Union, supporting innovative companies to scale and foster their collaboration with corporates and public organisations. The goal of the program is to support European scaleups and startups to grow across borders by providing you with tailored readiness services, connecting you with relevant players and supporting you with gaining access to new markets.

### **About Healcloud**

Healcloud™ is a leading European technology enabler for life sciences research. We provide enterprise software to the pharmaceutical industry, clinical research organizations, and hospitals to build virtual data networks that aggregate health Big Data. Our integrated healthcare data platform, Healinsight™ Enterprise, revolutionizes data collection and management for any disease by rendering longitudinal real-world evidence (RWE) health data, while providing actionable insights into patient populations that lower costs and improve health outcomes. Learn more at [www.healcloud.com](http://www.healcloud.com).
